

Murray Mouse

Version 1.0

Installation Instructions

Congratulations! You've just downloaded the neatest little set of animated cursors around. Just follow the installation procedures, and you'll be on your way to using Murray Mouse.

(Reminder: If you don't have Windows® 95 or Windows NT™, then you can't use Murray Mouse. Sorry!)

From the downloaded self-extracting file "Murray10.exe", you received the following files:

Murray Mouse Setup.wri: The text file you are now reading. It contains the installation procedures for the Murray Mouse Animated Cursor Set

Order Form.wri: An Order Form for purchasing the full set of the Murray Mouse Animated Cursor Set

Catalog.wri A catalog file listing the cursor sets available from K'n S Associates. Along with the cursor set names, the file includes catalog numbers, unit prices, and color pictures to represent the cursors.

Murray Mouse Full Set.zip: A compressed file containing the full set of 14 Murray Mouse cursors (requires a password to decompress)

Murray Mouse Normal Select.ani: Demo cursor used for normal pointing.

Murray Mouse Text Select.ani: Demo cursor used for text selection.

Murray Mouse Diagonal Resize 1.ani: Demo cursor used for resizing a window diagonally.

The following is a list of the Windows® 95 (also for NT 4.0) and Windows NT™ (version 3.51 or below) cursor/pointer types for which the demo cursor files would best be used (these are only suggestions):

Or, if you prefer, you may order an uncompressed version of the cursor sets which you will receive via U.S. Mail on a floppy disk (U.S. orders only).
