**Animated Cursor Set**

**Version 1.0**

**Installation Instructions**

Congratulations! You've just downloaded the neatest little set of animated cursors around. Just follow the installation procedures, and you'll be on your way to using Cowboy Cody.

*(Reminder: If you don't have Windows® 95 or Windows NT™, then you can't use Cowboy Cody. Sorry!)*

From the downloaded self-extracting file "Cody10.exe", you received the following files:

**Cowboy Cody Setup.wri:** The text file you are now reading. It contains the installation procedures for the Cowboy Cody Animated Cursor Set

**Order Form.wri:** An Order Form for purchasing the full set of the Cowboy Cody Animated Cursor Set

**Catalog.wri** A catalog file listing the cursor sets available from K'n S Associates. Along with the cursor set names, the file includes catalog numbers, unit prices, and color pictures to represent the cursors.

**Cowboy Cody Full Set.zip:** A compressed file containing the full set of 14 Cowboy Cody cursors (requires a password to decompress)

**Cowboy Cody Normal Select.ani:** Demo cursor used for normal pointing.

**Cowboy Cody Text Select.ani:** Demo cursor used for text selection.

**Cowboy Cody Diagonal Resize 1.ani:** Demo cursor used for resizing a window diagonally.

The following is a list of the Windows® 95 (also for NT 4.0) and Windows NT™ (version 3.51 or below) cursor/pointer types for which the demo cursor files would best be used (these are only suggestions):
