Table of Contents

CHAPTER 1 Basic concepts	1
Working with TriSpectives	2
Interactive 3D graphics	2
3D documents	2
Scenes and pages	3
The scene	3
The page	4
The WorkBook	5
The main TriSpectives window	6
Menus	8
Catalogs	9
Standard catalogs	9
Working with catalogs	11
Saving your work in catalogs	11
Editing items within catalogs	12
Creating new catalogs	12
Hiding and showing catalogs	13
Catalog sets	13
Toolbars	15
Selecting toolbars for display	15
Moving a toolbar	16
The Camera tools	16
Standard tools	17
The Text tools	18
The 2D Drawing tools	18
The 3D Shapes tools	19
Selection toolbar	20
Timeline toolbar	20
Property sheets	21
Important functions	22
Saving your work	22
Naming documents in your WorkBook	23
Reversing actions	23
Deleting objects	23
Getting help	24

CHAPTER 2 • IntelliShapes	25
Using IntelliShapes	26
The Shapes catalog	27
3D solids	27
Holes	27
Text shapes	28
2D shapes	28
Creating a shape	28
The anchor	28
Selecting an IntelliShape	29
The Select tool	29
Selecting an editing mode	29
Modifying a shape	31
Handles	31
The square handle	32
Deleting a shape	33
Moving a shape	33
Using the camera tools	34
The Orbit Camera tool	35
The Pan Camera tool	35
The Fit Scene tool	36
The Target Camera tool	36
The Zoom Camera tool	36
The Window Zoom tool	37
The Dolly Camera tool	37
The Look At tool	38
The Walk Camera tool	39
Split-screen views	39
Shape properties	41
Colors	43
Textures	44
Changing the scale of a texture	45
Surface finishes	46
Transparency	47
Reflections	48
Bumps	50
Decals	51
Moving a decal	52
Shelling	53
Beveling	54
Surface reshaping	56
Lighting	57

Quantitative analysis tools	58
Shape analysis	58
Shape statistics	60
CHAPTER 3 A Building models	61
Combining IntelliShapes in a model	62
The Showcase catalog	62
Editing models shapes and surfaces	02
Beginning a model	65
Using the Sizebox properties	66
Moving conving and linking shapes	68
Using the Interaction properties	69
Positioning shapes	70
Using the Move From-To tool	70
Using SmartSnap	72
Grouping shapes in a model	
Applying colors and textures to models	75
Saving a model in a catalog	76
Modeling in IntelliShape mode	77
Using SmartDimensions	78
Using the TriBall tool	81
The TriBall controls	83
Moving the TriBall	85
Repositioning models with the TriBall	85
Copying multiple shapes and models with the TriBall	87
Using the scene grid	88
More positioning techniques	90
Attachment points	90
Position properties	92
Anchor properties	93
Using hole shapes in models	94
Using the WorkBook browser	97
Saving scenes and WorkBooks	98
CHAPTER 1	101
Creating two-dimensional shapes	102
The 2D drawing tools	102
Drawing lines and 2D polygonal shapes	102
Using the Fillet tool	104
2D drawing in 3D space	105
Drawing circles and arcs	105
Drawing Bezier curves	106
Editing 2D shapes	107

Deleting 2D curves and shapes	108
2D shape properties	108
2D shape outlines	109
Assigning colors and line styles to 2D shapes	109
Creating custom IntelliShapes from 2D profiles	110
Extrusion	111
Spinning	114
Sweeping	118
Lofting	121
A final example	124
Creating mirror images of shapes	126
Measuring 2D angles and distances	127
Using the Angle-Distance Drag Mode tool	128
The Cross-Section property sheet	129
CHAPTER 5 • Text	131
Adding 3D text	132
Editing and deleting 3D text	133
The text sizebox	134
The Text Tools toolbar	135
Beveling text	135
	126
Text modes and properties	130
Importing text from word-processing programs	130
Inporting text from word-processing programs	136 137 139
Text modes and properties Importing text from word-processing programs CHAPTER 6 ● Illustration techniques Pages and scenes	130 137 139 140
Text modes and properties Importing text from word-processing programs CHAPTER 6 ● Illustration techniques Pages and scenes Lighting	136 137 139 140 140
Iext modes and properties	130 137 139 140 140 142
Text modes and properties	130 137 139 140 140 142 143
Text modes and properties	130 137 140 140 142 143 143 143
Text modes and properties	130 137 137 140 140 142 143 143 143 143
Text modes and properties Importing text from word-processing programs CHAPTER 6 ● Illustration techniques Pages and scenes Lighting Changing a light's color and intensity Changing the direction of a light Turning off lights or adding more Casting shadows Annotation dimensions	130 137 137 140 140 142 143 143 143 144
Text modes and properties Importing text from word-processing programs CHAPTER 6 ● Illustration techniques Pages and scenes Lighting Changing a light's color and intensity Changing the direction of a light Turning off lights or adding more Casting shadows Annotation dimensions Changing the background	130 137 140 140 140 142 143 143 143 144 145
Text modes and properties Importing text from word-processing programs CHAPTER 6 ● Illustration techniques Pages and scenes Lighting Changing a light's color and intensity Changing the direction of a light Turning off lights or adding more Casting shadows Annotation dimensions Changing the background SmartRendering	130 137 140 140 140 143 143 143 143 144 145 146
Text modes and properties Importing text from word-processing programs CHAPTER 6 ● Illustration techniques Pages and scenes Lighting Changing a light's color and intensity Changing the direction of a light Turning off lights or adding more Casting shadows Annotation dimensions Changing the background SmartRendering Rendering styles	130 137 137 140 140 140 142 143 143 143 144 145 146 147
Text modes and properties Importing text from word-processing programs CHAPTER 6 ● Illustration techniques Pages and scenes Lighting Changing a light's color and intensity Changing the direction of a light Turning off lights or adding more Casting shadows Annotation dimensions Changing the background SmartRendering Rendering styles	130 137 140 140 140 143 143 143 143 144 145 146 147 148
Text modes and properties Importing text from word-processing programs	130 137 137 140 140 142 143 143 143 144 145 146 147 148 148
Text modes and properties. Importing text from word-processing programs. CHAPTER 6 ● Illustration techniques. Pages and scenes. Lighting. Changing a light's color and intensity. Changing the direction of a light. Turning off lights or adding more. Casting shadows. Annotation dimensions. Changing the background. SmartRendering. Rendering styles. Working on the page. Working with models on the page. Adding scenes to the page.	130 137 137 140 140 140 142 143 143 143 144 145 146 147 148 148 149
Text modes and properties. Importing text from word-processing programs. CHAPTER 6 ● Illustration techniques. Pages and scenes. Lighting. Changing a light's color and intensity. Changing the direction of a light. Turning off lights or adding more. Casting shadows. Annotation dimensions. Changing the background. SmartRendering. Rendering styles. Working on the page. Working with models on the page. Creating collages by combining models.	130 137 137 140 140 140 140 142 143 143 143 143 143 145 146 147 148 148 149 150
Text modes and properties. Importing text from word-processing programs. CHAPTER 6 Illustration techniques. Pages and scenes. Lighting. Changing a light's color and intensity. Changing the direction of a light. Turning off lights or adding more. Casting shadows. Annotation dimensions. Changing the background. SmartRendering. Rendering styles. Working on the page. Working with models on the page. Creating collages by combining models. Rotating a model on a page.	130 137 137 140 140 140 142 143 143 143 143 144 145 146 147 148 148 149 150
Text modes and properties. Importing text from word-processing programs. CHAPTER 6 • Illustration techniques. Pages and scenes. Lighting. Changing a light's color and intensity. Changing the direction of a light. Turning off lights or adding more. Casting shadows. Annotation dimensions. Changing the background. SmartRendering. Rendering styles. Working on the page. Working with models on the page. Adding scenes to the page. Creating collages by combining models. Rotating a model on a page. Positioning models with the page grid.	130 137 137 137 140 140 140 140 142 143 143 143 143 145 145 145 146 145 148 148 149 150 151 151
Text modes and properties. Importing text from word-processing programs. CHAPTER 6 • Illustration techniques. Pages and scenes. Lighting. Changing a light's color and intensity. Changing the direction of a light. Turning off lights or adding more. Casting shadows. Annotation dimensions. Changing the background. SmartRendering. Rendering styles. Working on the page. Working with models on the page. Creating collages by combining models. Rotating a model on a page. Positioning models on the page. Using the back on the page. Using the back on the page. Dragging models on the page. Using the back on the page. Using the back on the page. Dragging models on the page. Using the back on the page. Dragging models on the page. Using the back on the page. Dragging models on the page. Dragging models on the page.	130 137 137 140 140 140 142 143 143 143 143 144 145 145 146 147 148 148 149 150 151 152 152

Changing your view of the page	153
Adding text to the collage	154
Saving the page	155
Embedded pages and scenes	155
Embedding scenes on pages	156
Working with layered scenes	159
Editing an embedded model	159
Embedding an empty scene on a page	159
Embedding pages on scenes	160
Embedding an empty page in a scene	162
Technical Illustrations	163
Annotation dimensions	165
Line settings for hidden-line drawings	168
Printing a page or scene	169
The Print Preview window	171
CHAPTER 7 Animation	173
Adding SmartMotions to models	174
Creating your own animation sequence	176
Using the SmartMotion Editor	177
Setting the segment properties	179
Fine-tuning the segment properties	181
Removing SmartMotions from models	182
Using the Segment properties sheet	183
General tab	183
Time Effect tab	184
Path tah	185
Using the Key dialog box	186
Position	186
Origin	186
Scale	187
Orient At	187
Orient IIn	187
Tilt Pan and Roll	188
	100
CHAPTER 8 • The outside world	189
Dragging and dropping TriSpectives documents into other applications	.190
Importing models from other applications	191
Embedding documents from other applications	193
Exporting documents from TriSpectives to other applications	196
Exporting models as model files	196
Exporting scenes as image files	198
Exporting 2D shapes as AutoCAD files	199

Exporting animated documents	200
Linking TriSpectives models to Microsoft Excel	202
	205
Building a bar stool	205
Proparation	200
Reginning the cost change	200
Croating the seat cross section	207
Reginning the log change	210
Positioning the log on the sect	212
Conving and positioning the other logs	215
Copying and positioning the other legs	
Adding colors and toytures	
Adding colors and textures	
During a hammer	
Preparation the hammer chaft	
Creating the shaft cross section	
Designing the harmorhead	
Greating the hammerhead cross section	
Deginning the hele change of the hammerhead	
Creating the homeorhood hale creat section	
Creating the striking surface of the harmon	122
Creating the striking surface of the hammer	234
Adding solars and textures	
Adding colors drid textures	230
Creating the bandeet	238
Creating the corriges	
Adding the earpiece	
Adding the ear cavity	244
Adding the speaker grid	
Adding a color to the telephone body	251
Adding the LED display	
Using SmartDimensions for precise positioning	
Adding a color to the LED display	254
Adding the cavity for the numeric keypad	254
Adding the telephone key template	255
Adding the large key holes to the template	256
Using the Triball for precise copying	258
Adding the small key holes to the template	260
Saving the model	262
Adding a mouthpiece	263
