IAB activities July-Dec 1996 (1)

- July - advised IESG about accounting-related work in the IETF. *(Summary - specifying mechanisms is OK, recommending business practices is not OK.)*
- August - published cryptography statement (RFC 1984), subsequently followed up, e.g. with OECD, French translation...
- September - represented at Harvard policy workshop.

IAB activities July-Dec 1996 (2)

- October - after SYN attacks, queried Mobile IP about impact of source filtering by ISPs.

  - published IRTF procedures (RFC 2014).

  - established liaison with ISO JTC1/SC2, as first step to on-line access to ISO 10646.

- November - published character set report as draft-weider-iab-char-wrkshp-00.txt

  - finalised IP Address Behaviour document (RFC tbd).

  - nominated 2 members to IAHC.

  - responded to junk article in NYT.

IAB activities July-Dec 1996 (3)

- On Tuesday we discussed:
  - Millenium issues.
  - larger model embracing int-serv / rsvp / issll/ qosr / mmusic / avt.
  - generic “good” protocol features.
  - how to get the IAB out of endless policy discussions?
