

# The Value of Java™

Bob Airasian VP, Advanced Technologies Fidelity Investments Boston, MA

# Why Java at Fidelity?

- Electronic Commerce over a Web based architecture
- A pre-requisite for the adoption of Internet Terminals
- Software distribution to diverse users

# How We Make Java Work at Fidelity Investments?

- "Cooperative" corporate standardization
  - Java<sup>TM</sup> Application Software Services
  - User Group to Exchange Ideas
- Extending Fidelity Security Protection
  - Transactional Semantics
  - Authenticating EVERY request!

# Why Do the Java Application Software Services?

- Business Foundation Objects
- Transaction Brokers
- Relay Services
- Staging Services (especially for Network Terminals!)
- Security Services
