## Studio Picker Help

Welcome to Kid Pix Studio! With Kid Pix Studio you can create delightful drawings, silly and dramatic productions, slide shows and digital movies.

Click on the framed picture or name plate of the project you want to begin. To draw and paint wacky pictures, click on "Kid Pix." To draw and paint animated pictures, click on "Moopies." To create animated productions using Rubber Stamps, click on "Stampimator." To create computer puppet shows, click on "Digital Puppets." To view digital movies, click on "Wacky TV." To create a slide show using your paintings and animations, click on "SlideShow."

When you want to pick a new project, use the **File** menu to select the "Return to Studio" command, and you will be returned to the Studio Picker screen. Your Kid Pix Studio *User's Guide* is a complete reference guide which explains all the program's features in detail. But you don't need to study it before you begin; discovering what you can do with Kid Pix Studio is a lot of the fun. Help screens in each project give a brief overview of features.
