

HEART OF CHINA!!!!

Here is one solution for Dynamix game Heart of China (there may be other solutions):

In the beginning you are in the dock. First go to town and pick up the leaflet. Use the leaflet to make an arrow-plane. Go to bar. Talk to Ho. Choose options 3, 1, 1 and 1. Then you will talk to Goon. Now choose 1 and 2. Now Chi will show up. Talk to Chi: 1, 2 and 3. Then use arrow-plane on Chi. After that Chi will come with you.

Go to herbalist's shop and talk to Master Wu. Then use Chi to talk to Wu. Then use Lucky again and talk to Wu. Wu will tell you that she needs sea gull droppings. Go back to dock. Give prune to bird and pick up droppings. Go back to Wu's. Talk to Wu and do what she says. Give herbs to Chi. Take the passport and the map.

Go to airport and enter plane. Do NOT give your passport to Official. After a short debate he will let you enter the plane. Pick up crowbar, rope and hook. Then fly. Chi will tell you where to land. Leave the plane and you will meet a peasant. Talk to him; choose 1, 2 and 1 and you will get his clothes. Put clothes on Chi. Give rope and hook to Chi. Let Chi use rope on cow. Go to the fortress. Wait till the peasant has gone in. Use Chi and enter the fortress. Take off and drop peasant clothes and wear Ninja clothes. Enter Gatehouse and pick up the key. Go to the wall, use rope on hook and use the thing you get on the wall.

Go to palace. Wait till there are no guards in sight. Then go to dining hall. Take the bottle and fell the oil lamp. Go to kitchen and give the bottle to dog. Go to cook's bedroom, open the door and enter the great hall. Miss Lomax is there. Bar the door. Shoot the snakes (hold down the right button and crosshair will appear if Lucky is using the gun, press the left button while holding down the right button to fire). Take Miss Lomax and go to balcony. Take curtain rope and use it on balcony. Go to tank and enter tank. Use the key to start the tank. Now you can play the arcade sequence or skip it. Then fly.

Then your plane will crash and Lucky must go to seek help. Go into the plane and pick up blanket and tarp, then use them to protect Miss Lomax from cold. Then give herbs to Miss Lomax (in right order).

You will arrive at Ama's hut. Talk to Ama but don't insult her. Leave Ama's hut. Go to Lama's Sanctuary. Tell disciple that you are an envoy from federation... and you will get in. Talk to Lama and choose 3 and 1. Then leave the Sanctuary and go to the local tavern. Talk to Bijaya and buy a drink for everyone. Talk to Sardar, choose 2 and go back to Lama's Sanctuary. Talk to Lama and leave the Sanctuary. Go to junkyard and talk to boy, choose 3 and 1 to get siphon hose. Go to the local tavern, talk to Sardar, choose 2 and 3 and give the gun to Sardar.

After a while you will arrive at Istanbul. Leave the plane and go to the city gates, city center, side street and officer's club. Talk to bartender and ask him about the phone. Now you will talk to Mr. Lomax. Leave the club and the palace guard will capture you. You will start playing as Miss Lomax. Go to the shop and sell locket and then go to the street gambler and play the game. By playing the game you will get enough money you need later. Play as long as the gambler is willing to play. Go back to the shop and buy a hack saw. Go to the railway station and buy a ticket. Go back to the city gates, buy a camel and try to take an orange. Choose 1 when talking to boy. You will get a flower from him. Go to city center, Nabob's palace and to the side of palace. Talk to old woman and give a flower to her. After a rather long sequence you will be at the city gates, talk to boy. Go to the railway station and enter train.

You may play the following sequence as Lucky or as Kate, we played as Lucky. Depending on how you talk to Kate (and if you visited her in the village and how you talked to her there) you can end up getting married to her or you can end up in a ditch (There are at least these two alternate ends, there may be more). During the way to Paris there is an arcade sequence, you can play it or skip it.

Now you have played the game through, hope you enjoyed it!
