

## **LEISURE SUIT LARRY II LOOKING FOR LOVE IN SEVERAL WRONG PLACES!!!!!!**

OK, the first thing you do is go into the garage. Search it all around, each part of it, until you find the dollar bill. Get it! Next, go to the Quickie-Mart and buy a Lottery Ticket... use any numbers. Go to the TV Station and give the ticket to the secretary. She'll tell you what the winning numbers were. Remember these numbers, when she asks you for your numbers you tell her the winning numbers she just told you. She'll let you into the green room, sit down on the chair and wait. The fag comes out and takes you onto the dating game. The only thing I have to tell you about the dating game is just say whatever you want when the girl asks you questions, it doesn't make a difference. The rest just happens. When you leave, sit down on the chair again and a girl will come out and bring you to the lottery. The lottery scene happens by itself too. When you're done with the lottery, leave and go to the Molto Lira (the suit shop). Buy a swimsuit and the bitch will change your million dollar bill. Go to Swabs Drugs and buy some sunscreen. It's on the left wall. Go back to the Quickie-Mart and Buy a Grotesque Gulp. Go back to Eve's House and Search the Trash. The first time, it'll ask you why you wanna do it, just hit search trash again and you'll find a passport. Go to the Music Shop and talk to the girl. You should get an Onklunk. Go to the Barber Shop and sit in the chair to get a haircut. Then go to the screen directly to the right of the barber shop, you'll find the dock. As long as you have a passport and ticket just show the man the ticket and you're all set. On the boat, you should probably save your game. First thing to do is go into your room, that's the doorway closest to you. Get the fruit from the nightstand. Go into the next room and you'll meet Momma. If you have a saved game right here, I think you'll get a laugh out of what happens if you go near Momma. What you have to do is leave her room and your room, then go back in, and wait till she's not on the bed. Make sure the game is saved!!! Momma has a tendency to come back as you search her room. Open the nightstand, get the sewing kit, close the nightstand, and get the FUCK out of there. You should save your game here, just save over the one before you got the sewing kit. Find the barber shop (Don't worry, there's 5 barber shops in this game) and sit in the chair. Go to the bar and get the spinach dip at the left of the bar. Go to your room and change into your swimsuit. Go to the pool and put sunscreen on. Go into the water and dive. Get the bikini top. Climb up the ladder and walk over to the lounge chair. Put more sunscreen on and lie down. When this bitch comes over, let her leave! She's trouble. After she's gone for a while, leave the pool and go back to your room and change into your leisure suit. Go to the bridge. Go to what looks like a blue stick on the control panel right behind the captain. Pull switch. Now, go to the lifeboats and jump into the lifeboat. Now, at the screen where it shows the whole ship and all the lifeboats being lowered, as soon as you start drifting away, type WEAR WIG and throw the spinach dip overboard. That's it until you reach the island. The first thing to do on the island is go down. This is a bitch!!! In the restaurant, after you get a seat, get the knife from the buffet table and leave.. Now in the hotel room, get the soap and matches. Leave the

maid alone. Now leave the room. Oh yeah, as you're walking through the jungle, wait until you're near the potted flowers, and type GET FLOWERS. If it keeps saying "You're not close enough" keep trying. You'll get them. In the Barber Shop, sit down in the chair. When you get back to the beach, go to the left and get the bikini bottom. Go back to the first screen and go back down. In the restaurant, just leave. In the hotel room, go into the dressing area behind the bathroom and change into the bikini. Type PUT MONEY IN BIKINI TOP. Now leave. In the barber shop, sit down in the chair again. You now look like a girl(???). Back at the beach, go to the right. Just go right by the KGB agents. Now, these cliffs aren't as bad as they look. Just get by them and you're at the airport. At the very end of the cliffs, as it's giving you the big thing how you've escaped the KGB etceteras... try to type constantly, as soon as you can, type CHANGE CLOTHES. At the airport, first go to the left and get a haircut. Now, go back to the ticket lines and go to the right. Show the passport to the man and he'll let you pass. Go right by the guard and to the suitcase line. Wait for the green cammo suitcase and get suitcase. After the bomb goes off, go over to the line and buy a ticket. Go back to the guy you showed your passport to and show him the ticket... go by the guard again and go to the next screen. Order some food. Don't eat it, just get the bobby pin. Go to the machines and get the parachute from the FLIGHT INSURANCE machine. Just type BUY INSURANCE. Get on the ramp. At the waiting room, get the pamphlet off the counter and give the man the ticket. On the plane, as soon as you sit down, give the pamphlet to the man next to you. Go to the back of the plane and wear the parachute. Open the emergency door with the bobby pin. When it shows the scene where you're falling through the sky, pull ripcord. When you find yourself in the tree, cut rope. On this next screen, pick up the stick and crawl under the bush with the bees. On the next screen, wait till the Anaconda comes after you and HOLD STICK. On this screen, follow the bright patches near the bottom of the screen to avoid the quicksand. Depending on your colors, this may be hard to find, but you'll make it. On this next screen, find the right vine and GRAB VINE. When you get onto the vine, type GRAB VINE again. Keep going until you reach the other side of the river. Find the vine you can take and GET VINE...move either to the right or up, it doesn't matter. Now sit back and watch the cartoon for the next five minutes or so. When you get to the chasm, go back down to the village, back to the screen where the fire was, and get ashes. Go back to the chasm and throw vine. If you're close enough you can swing on the vine across the chasm. Keep going until you get to the bottom of the glacier. Find the right place and type THROW ASHES. Go up to the top of the mountain where the elevator is. Go to the edge of the chasm, I always use the part where it widens into a whole near where the steam comes out. Type PUT BAG INSIDE TONIC BOTTLE. That worked for me. It's very sensitive here to the exact wording. Light bag and drop bottle. It'll blow the door open. Go into the elevator and that's it. It takes over from here. Get ready for a good 15-20 minute cartoon.
