Arrange-It Software Package	4
Copyright Information	4
About This Guide	5
Using Keyboard Shortcuts	6
Document Conventions	7
1: Getting Started	11
System and Software Requirements	11
System Hardware	11
Memory and Disk Space	11
Display	11
CD-ROM Drive	11
System Software	12
Installing Arrange-It Software	12
Starting Arrange-It Software	14
Using the Arrange-It Software Application Window	15
Arrange-It Software Menus	16
Toolbar	19
Collection Window	22
Document Window	22
2: Using the Tutorial	25
Lesson 1: Creating a New Document	26
Starting the Arrange-It Software Application	26
Saving the Document	26
Opening an Existing Collection	27
Ending Lesson 1	28

Table of Contents

Lesson 2: Importing Files Into the Collection	28
Setting Up for Lesson 2	28
Selecting, Previewing, and Importing Files	29
Editing Imported Files	32
Ending Lesson 2	33
Lesson 3: Create a Menu Node	33
Setting Up for Lesson 3	34
Creating a Menu Node	34
Defining and Positioning Hot Spots	36
Applying Transitions and Delays	39
Ending Lesson 3	40
Lesson 4: Create Sequence Nodes	41
Setting Up for Lesson 4	41
Creating Sequence Node 2	41
Create Sequence Nodes 3 through 7	43
Ending Lesson 4	45
Lesson 5: Connecting Nodes	46
Setting Up for Lesson 5	46
Creating Paths to Connect the Nodes	46
Adding a Vertex to a Path	48
Ending Lesson 5	49
Lesson 6: Verify and Preview Presentation	50
Setting Up for Lesson 6	50
Verify Presentation	50
Viewing the Tutorial Document	52
Preview Your Presentation	54
Ending Lesson 6	55
Lesson 7: Building a Script	55
Setting Up for Lesson 7	55
Building the Script	55
Preparing Document for Placing on a Portfolio Disc	57
Selecting Media Formats	59
Locating a Photo CD Service Provider	59

3: Working With Collections	63
Using Collection Windows	63
Opening Collections	64
Creating a New Collection Window	64
Importing Image and Audio Formats	65
Editing a Collection	66
Adding Images and Audio Files	66
Removing a File from a Collection	68
Updating a File in a Collection	68
Renaming a File in a Collection	68
Reordering Files in a Collection	69
Saving or Discarding Your Work	70
Removing a Collection	70
4: Creating Nodes	73
Menu Node	73
Sequence Node	75
Replacing a File in a Node	77
Deleting a Node	77
Displaying a Hidden Node	78
Changing the Node Border Color	78
Aligning Nodes	79
Merging Sequence Nodes	81
Grouping Nodes	82
Adding to a Group Node	83
Naming a Group Node	83
Viewing and Removing Nodes from a Group Node	84
Ungrouping a Group Node	84
5: Connecting With Paths	89
Creating Paths	89
Using the Drag-and-Drop Method	90
Using the Selection Method	90

Table of Contents

- Creating Menu Selection Paths 91
- Defining Hot Spots 92
- Adding Vertices 95
 - Adding a Vertex When Creating a Path 95
 - Adding a Vertex to an Existing Path 96
- Aligning Vertices 99
- Showing and Hiding Paths 100
- Changing Path Color 101
- Showing the Origin and Destination of a Path 101

- 6: Modifying Nodes 105**
 - Opening a Node Editing Dialog Box 105
 - Naming a Node 105
 - Editing Menu Nodes 106
 - Menu Node Menu Modification Screen 106
 - Menu Node Image Modification Screen 111
 - Menu Node Sound Modification Screen 114
 - Menu Node Path Modification Screen 117
 - Menu Node Playback Modification Screen 118
 - Editing Sequence Nodes 121
 - Sequence Node Image Modification Screen 121
 - Sequence Node Sound Modification Screen 128

- 7: Making Global Modifications 133**
 - Global Modify Image Modification Screen 133
 - Changing the Sequence Display Width 134
 - Setting Image Pac Resolution 134
 - Global Modify Path Modification Screen 135
 - Global Modify Playback Modification Screen 137
 - Setting the Transition 138
 - Setting Display Resolution 139
 - Global Modify Delay Modification Screen 140

Table of Contents

8: Changing Preferences	145
Preferences Image Modification Screen	145
Changing the Sequence Display Width	146
Setting Image Pac Resolution	146
Preferences Path Modification Screen	147
Preferences Playback Modification Screen	149
Setting the Transition	149
Setting the Display Resolution	150
Preferences Delay Modification Screen	151
Preferences Preview Modification Screen	152
Setting Player Model	153
No Delays During Preview Presentation	153
9: Finalizing Your Presentation	157
Completing the Document	157
Startup Image	157
Start Node	158
Saving Documents	159
Verifying the Document	161
Using Preview Presentation	165
Building the Script	167
Copying Directories	168
Assembling Files	170
Selecting Media Formats	170
Locating a Photo CD Service Provider	170
10: Using Other Editing Methods	173
Import Playlist.PCD	173
Text Outline Language	174
Legal Terms and Values	174
Creating a Document	175
