

Bugs and Caveats as of 1.0d9

- Tab cycling in the Edit dialog of the Editor doesn't work correctly (annoyance in PowerPlant)
- Full fledge error checking not completely implemented as it should be.

Future Plans

- Support for user-definable types
- Additional card types (A Movie Card?)
- AppleScript compatibility
- More quizzing options?
- Card Type plug-ins?
- Change "Multiple Answer" type to "X out of Y" type (of which the current multiple answer type is a subset of)

If you have any other suggestions, comments, or bug reports, please write or email me at the contacts that I have listed on the Copyright and Contact page.
