Some "Thank You's" from Jeff…

My unrestrained, enthusiastic thanks to the testers of VirusDetective and VirusBlockade who helped make these Macintosh programs what they are today (hopefully terrific)!

DEVELOPMENT TESTERS…

J. Marcus Ziegler
Tom Trinko
Geoff Hartley
Chris Johnson (who also provided VirusBlockade's iclx ShowINIT code)
Bill Steinberg
David Sternlight
Jim Warthman

BETA-TESTERS…

All the Development Testers listed above…
        …plus…
Mark Anbinder
Bart Barton
Steve Bobker
Mike Bradley
Anne Inda
David Laine
Chris McDonald
Kit Mosden
David Newman
Henry Norr
Dave Platt
Gene Steinberg
Bob Thum
Gary Walo

TO MY REGISTERED USERS…
I would like to thank all my registered users who have sent in their hard-earned money to become registered – and who have encouraged family, friends, colleagues, and even perfect strangers to register their copies of VirusDetective and VirusBlockade!

TO MY 'SITE LICENSE' REGISTERED USERS…
I would like to give an extra special thanks to those of you who are employed at organizations where VirusDetective is being used on a mass level without originally being registered – and who have emboldened their employers to 'fess up' (confess), and see to it their organization became registered.

-the end -
