

MacHack '90 Pocket Program at 6/14/90 Wednesday, June 13

	Biltmore	Carlisle	Essex	Savoy	Berkeley				
9:00			Intro to Mac Programming I		What is a Business Plan?				
9:30									
10:00									
10:30			Paper: <i>C++ and TMON</i>		Why Do I Need a Product Specification?				
11:00									
11:30									
12:00	Lunch in Holidome								
12:30									
1:00									
1:30	Keynote Presentation								
2:00									
2:30									
3:00	Apple's Font Architecture	HyperCard	Network Applications	Porting Code To and From UNIX and DOS	Code Clinics				
3:30									
4:00									
4:30	Updating Code to be System 7.0 Compatible	Coprocessors and Parallel Processing	Communications Toolkits	Programming Environments					
5:00									
5:30									
6:00	Dinner - On Your Own								
6:30									
7:00									
7:30						Apple Feedback Session			
8:00									
8:30									
9:00									
9:30									
10:00									

Thursday, June 14

	Biltmore	Carlisle	Essex	Savoy	Berkeley					
9:00	10 Commandments of System 7.0 Programming		Intro to Mac Programming II - The Toolbox	Paper: <i>Semantics</i>	Project Management					
9:30										
10:00										
10:30		Paper: <i>Dynamic Popup Menus in MacApp</i>	Essence of Mac Hacking	Pascal is My Friend						
11:00										
11:30										
12:00	Lunch in Holidome									
12:30										
1:00										
1:30						Appletalk 2.0		Team Programming	Talking to the Slots	Code Clinics
2:00										
2:30										
3:00	Inter-Application Communications		Writing Reusable Code	Paper: <i>Extensible Applications</i>						
3:30										
4:00										
4:30	Object-Oriented Programming	Tech Writing	Programming for Networks	Debuggers						
5:00										
5:30										
6:00										
6:30										
7:00	Banquet									

7:30
8:00
8:30
9:00
9:30
10:00

Friday, June 15

	Biltmore	Carlisle	Essex	Savoy	Berkeley
9:00			Tools, Books and Hardware		Work For Hire
9:30					
10:00			Basics of System 7.0	Human Interface Issues	Introduction to Copyrights and Patents
10:30		MacApp			
11:00	Animation				
11:30					
12:00	Lunch in Holidome				
12:30					
1:00			Network Protocols	Color QuickDraw	Code Clinics P
1:30	Virus Strategies	C, C++, C+-			
2:00			International Programming	Video Tips	
2:30					
3:00					
3:30					
4:00	The Future of Apple		Artificial Intelligence	The Future of Graphics	
4:30	Industry Perspective				
5:00	Closing Session and	Best Hack Contest Award Presentations			
5:30					
6:00					
6:30					
7:00			Dinner - On Your Own		
7:30					
8:00					Business Plan Bash
8:30					
9:00					
9:30					
10:00					

D

Sutton/RT1	Sutton/RT2
Hacks	Allegro Common Lisp
Beta Testing	ResEdit
Shareware	Programmers Helpers

Sutton/RT1	Amphitheatre
Apple's Real-Time Operating System	Vendor Demo <i>theResult Software</i>
Virtual Memory	Vendor Demo <i>Hotwire Labs</i>
Multi-User Game System Under IAC	Vendor Demo <i>RKM Solutions</i>

June 15
(UM Campus)

Sutton/RT	Amphitheatre	Saturday
Writing A/UX Compatible Mac Programs		Transportation To MacTechnics
		MacTechnics Programmers SIG
		MacTechnics Meeting Hack Presentations & Demos
System 7 File Architecture		Lunch at UNO's
Virtual Memory (reschedule)		
Intro to Mac rogramming (cont	Vendor Demo Symantec	<i>Finis!</i>
		Machine Room Stays Open until Saturday 9 am
