

Masterpiece Mansion™

Monitor and Hardware set-up

Make sure your monitor is set to 256 colors and 640x480 display size using the Windows Setup program located in the MAIN group.

For best results, quit all other applications and turn any screen saver off.

QuickTime installation

If QuickTime 2.0.3 is not installed on your hard drive, install it from the CD-ROM. Using the File Manager, open the CD-ROM drive, then double-click on the QTINSTAL.EXE file. This will set you through removing and old versions of quicktime that may be on your system.

Starting Masterpiece Mansion and The Art Explorer

Using the File Manager, open the CD-ROM drive, then double-click on the MANSION.EXE file to start Masterpiece Mansion. To use the Art Explorer, double click on the EXPLORER.EXE file.

No other installation is necessary.
