Curriculum vitae:

I was born on October 3rd, 1967. I spent my first couple of school years in the Pestalozzi school in Schweinheim/Aschaffenburg. At the age of 8 me and my parents moved to Saudi-Arabia. I spent almost six years there. After returning to Germany I went to school at the Friedrich-Dessauer gymnasium in Aschaffenburg where I passed my graduation in 1987. In October 1987 I started studying electrotechnics at the "Technische Hochschule" in Darmstadt. In 1991 I learnt to know my wife Jessica Rodriguez in Columbia. In May '92 our daughter Melanie was born. Since 1993 I have a job as research assistant at the centre for graphical data processing in Darmstadt. Since August '95 I am a freelance worker at the Fraunhofer institute for graphics data processing. :-)

Projects:

```
- pre-thesis:  Development of a computer generated video film about
                   manufacturing and usage scenarios.

- thesis:      Development of a fuzzy controller for autonomous car
                   steering using genetic algorithms.
```

Research assistant projects:

- visualization of the new IGD building.

- visualization of the new check-in counter of Lufthansa.

- Development of a virtual supermarket in VRML.

Currently I am working on visualizing terminal 1 of the airport

Frankfurt (for Lufthansa)

Amiga projects:

- Anything that has got to do with raytracing, computer animation and
  image processing.

- A little programming (unfortunately to little by far :-( ).

- MP3, requires a lot of work, but is even more fun to do.

Hobbys:

- Reading, almost anything that I can put my hands on (J.R.R.Tolkien,
  Stephen Kind,...)

- Diving, ice-skating and rollerskating.

- Travelling (especially to Columbia)
