1.1   Frank Neumann

```
Name:      Frank Neumann
e-Mail:    Frank.Neumann@informatik.uni-oldenburg.de
Directory: admin (english part)
Amiga:     see below
```

So, what do you expect here? Another one of these nice curriculi
vitae? Honestly – I'll have to disappoint you. :-)

The last days were filled with preparations for the MP3, and tomorrow
is deadline. It's 5:29 a.m., and I'll still have to get a 1.9 MB
archive transferred via Modem and ftp to a system in Karlsruhe.
My bed is just 2 m away, but I can't yet go to sleep until this is
finished. Consequently, I'm not too fond of the idea of writing down
my past life now. :-}
With a bit of luck, the time stamps of the creation/modification
times of these files got through and you can see when I did this. :-)

By the way: There is only this english version of my .guide file,
no german version.

```
Just a few short words:

 Computer career:
 1981 first contact in school with CBM 3032 / 3040
 1982 VIC-20
 1983 Atari 600XL, soon replaced by 800XL
 1987 Amiga 500 (upgraded to 2.3 MB RAM, 65 MB Seagate OMTI hd etc.)
 1991 Amiga 3000

 Currently used system:
 - Amiga 3000 standard, 2 MB Chip, 12 MB Chapper
 - Quantum LPS 210 and Fujitsu M2694ESA harddisk
 - Apple CD300
 - HP DAT 35470
 - TKR 14.4k Modem
 - 1081 and Idek MF8617 monitors
```

 - Graphic boards: Rainbow 3, Piccolo, SD64, Peggy+

 I do a lot with Linux/m68k as I have lost interest in AmigaDOS. I
 also maintained the linux/ directories on the MP1 and MP2 CDs.

 Thanks go out to:
 - The Pet Shop Boys. Without their CDs (which I listened to during this night)
   I might not have been able to stay awake :-}
