

The TrueType™ version of
GROENING
(Rhymes with "complaining")

Cowan Design Associates
1806 North Oak Street #29
Arlington, Virginia 22209

Created by Cowan Design Associates for Macintosh™ Computers.

From the makers of the Crillee font, here's the perfect typeface for those "Life In Hell" fans!

This font is based upon the now famous handwriting of "Simpsons" creator Matt Groening.

This documentation accompanies version 0.5 of the typeface. It contains only numerals and uppercase letters. A future version will include lowercase and special characters.

To install using System 7, simply drag the font suitcase onto your System Folder. The Macintosh will automatically install the font into your System.

Cowan Design Associates provides Macintosh design and consulting services including brochures, advertisements, logos and custom font creation. For more information, please contact us at:

1806 North Oak Street, #29, Arlington, Virginia USA 22209;

703 522-2929

America Online "CowanDsign."

This font is Postcardware. Please send us a postcard of a local spot of interest - we also appreciate WEIRD postcards - like the one with the pig that Deiter sent us!
