1.45 Explanations

Explanations

There are some things you have to know about rules I used in this guide.

```

\textdegree{} all names are without national characters like "æ", "ó" or "ø" - it
makes life of readers easier
\textdegree{} about names - I had problems with Turks, but hope it's OK; all Turks ←
: if
it's wrong - inform me!
\textdegree{} about names 2 - sometimes well-known nicks of players are used ←
instead
of real names
\textdegree{} all squads are sorted by numbers, so sometimes goalkeepers are in ←
the
middle of the line-up
\textdegree{} yellow/red card is counted as follows: in match it's shown as one ←
yellow
and one yellow/red, but in statistics it's two yellows and one
yellow/red

About author

This guide is © 2000 by Kamil Nieôcieruk. Who's he? Well, it's me, so...
I'm Amiga user from Poland. I do many things, not only connected with
computers (studies, books, photo etc.). It's easy to guess I like sport,
isn't it? If you too, please take a look

here
. If not, do

it anyway. Why? You can find there a list of my other projects. Oh, and
I have to add that I'm admin of Polish section of ATO. ATO translates
programs for free for Amiga community. Please visit ato.vapor.com for
more info.

Now about status of Euro2000.guide. It's freeware, so you don't have to pay for it (but of course it's not prohibited ;), but if you like it, please mail me.

Here is how to contact me:

Mad about sport? Want more? Great! Please visit biotop.umcs.lublin.pl/~kniescio/soft.htm. You'll find there list of my projects and some of them are about sport. The most important are listed below.

Nagano.guide - guide with all the results of Nagano winter olympic games.
Atlanta.guide - very similar guide about Atlanta summer games. It's not finished, but if you want to see it - mail me.
KC - programme for role-players. It creates characters for Polish RPG
Kryształy Czasu (that's why it's only in Polish).
and last, but not least: my flagship
Fldb - database for Formula 1 fans. It can store all the results of GPs, all drivers (not only scoring six), it counts current standings in championship and more. And don't worry - it's localized.
