Because DimondCaves II is now FREEWARE an it have a better Grafik, so I convert
this Files from Allan Rasmussen to this files, which work 100% with DiamondCaves  ←
   II.
This was hard work, because you must select every level alone, because the Import  ←
   fnkt.
dont worked which DiamondCaves I Files correct.

Install: Start the Leveleditor and select, Import Levelgroup, then select the File ←
    in the
EM-Bobby.lvl Directory. Thats all !
