Introduction

Thank you for trying a  LuviSoft.com product!

Reversi 2k is a board game based on the well-known Othello/Reversi.

You can play it versus your pc or with your friends; many implementations of Othello can be found in the pc market with a very strong AI, **Reversi 2k** should be considered just an introduction to the original game, as it lets you practice the game at basic levels.

Reversi 2k is now donation-ware ([see license](#)), which means you are free to install and use it in any number of machines, it never expires and you are not required to pay anything for using it. no nag screens, remainder or any kind of ads. Only if you like it and would like to thank us for our work you can make a (money) donation ([see details](#)).

Remember, one single donation means (at least) a new version will be released. Thank you for the support.

Have fun! :)

What's new

** Version 2.1 fixes various bugs including freezing when neither of the two player has a valid move and other minor bugs

**When playing versus the computer player you can now select who makes the first move

**The initial position has been changed to respect the original game:

xO

Ox

instead of:

xx

oo

**The board is still 10x10 instead of 8x8; it's our choice, please don't report this as a bug

How to Play

Game basics

There are two players (either human or computer controlled) and balls of two different color in a 10x10 board, the initial position for the balls is like this:

xo
ox

Object of the Game

The object is to have the majority of your balls on the board at the end of the game. A game ends when the board is full or either players cannot make a valid move

How to "move"

Making a valid move means "outflanking" a row of your opponents balls with one of your balls and "conquer" the space occupied by them.

Example:

Suppose this is (part) of the board before your move

```
  1
1  x

2  o  o

3  o

4
```

You can place you piece (x) in 1-4...

```
  1  2
1  x

2  o  o

3  o

4  x
```

And take the opponents pieces in 1-2 and 1-3.

```
  1  2
1  x

2  x  o

3  x

4  x
```

Not so difficult right? Keep practicing and remember that you cannot move if you can't outflank at least one opponent piece. In this case the turn is passed to the other player

One good tip is to always try to take the corners

License Agreement

Reversi 2k is distributed as DONATIONWARE ([details for donations](#)) and is provided "AS IS" without any expressed or implied warranty. The author cannot be held liable for any damages arising from the use of this software!

You are allowed (and encouraged) to distribute it in any way as long as the original archive and all the copyright notices remain intact. You can make an unlimited number of copies of the software and use it in an unlimited number of computers.

YOU ARE NOT ALLOWED to reverse engineer the software or any part of it in any way.

Supporting LuviSoft.com

If you like Reversi 2k and would like to support us and its future releases (as well as other FREE LuviSoft.com products) you can make a donation online. Donations have a base amount of **5USD** or **5EUR** and are handled by an independent company named Element 5. Feel free to order multiple copies of "Reversi 2k Donation" if you want to donate more, or none, of course.

You can place your order, easily and safely, online with a credit card or by mean of a number of other payment options, including check, cash and wire transfer.

Registering **Reversi 2k** will give you the right to have your name in the list of contributors if you want; just drop us an email @ info@luisoft.com.

Remeber one single donation means (at least) a new version will be released. Thank you for the support!
