Introducing the LifeBook™ 500 Series from Fujitsu.

DESIGNED FOR THE BUSINESS OF LIFE

A state-of-the-art notebook with some very human touches. Details to make your day-to-day experience with a notebook personal and productive, not difficult and exasperating. Like a full range of Pentium® processors to match any job, from an 133MHz to a blazing 150MHz with MMX™ technology. Superb SVGA color video, large crisp active-matrix displays and 2MB of video RAM for a picture that's easy on the eyes. The freedom to keep things flexible with the LifeBook 500 Series' multi-function bay, allowing custom configurations that meet your always-changing needs. The ability to add battery life, storage capacity and desktop functionality to your system by expanding it with a second Lithium ion battery, second 1.3GB hard drive and docking options. And a standard 10x CD-ROM, 16-bit Sound Blaster™-compatible sound and full-motion video support, so all your hard work looks and sounds impressive. And this sleek, ergonomic notebook is also backed by a three-year limited warranty, including 24-hour, 7 days a week toll-free technical support. The LifeBook 500 Series. Powerful. Expandable. Thoughtful. With all the little details that make this high-tech notebook reassuringly high-touch.

BUILT FOR HUMANS

- **Contemporary Design**
New look, feel and color
- **Multi-Function Bay**
Supports 3.5" floppy disk drive, 10x CD-ROM drive, optional second Lithium ion battery and optional second 1.3GB hard drive
- **Multiple Lithium ion Battery Options**
Both the removable main battery and optional second battery provide flexible battery configurations
- **Second 1.3GB Hard Drive Option**
Additional storage capacity
- **Port Replicator and Mini-Docking Station**
For desktop expandability
- **Notebook Status Indicator**
For access to important operating information
- **Convenient Power Center Software**
For easy comprehensive power management control, including on-the-fly adjustments for longer battery life
- **Internal 33.6 Fax/Modem Standard**
Convenient communications
- **Memory Upgrade Options**
8, 16, 32 and 64MB DIMM modules supported
- **PCMCIA Card Lock and Theft Prevention Lock Slot**
For added security
- **Palm Rest**
To ensure typing comfort
- **Preloaded Software**
Useful applications for instant productivity
