G 1 A™

The Big Easy G1A from Mitsubishi Electronics is a multimedia data/video LCD projector capable of super-bright 550 ANSI lumen output using only a 250 watt metal halide lamp. It features a three-panel liquid crystal polymer composite (LCPC) active matrix for truer representation of 16.7 million colors. The overall result is a brighter, clearer image from any computer or video source.

- Projects crisp, vivid images from both computer and video sources
- Screen sizes from 20 inches to 300 inches (measured diagonally)
- 550 ANSI lumen output for bright pictures even in high ambient light
- Lightweight, compact size for easy portability
- Two wireless remote controls are provided; one for projector and one mouse remote for PC and Mac
- Projector and pixel structure remain cool insuring stable image displays
- Horizontal scan rate: 15.75, 25 to 37.86 kHz
- Variable contrast ratio using adjustable iris ring for optimum detail
- User-friendly design and controls

 **MITSUBISHI
ELECTRONICS**

Introducing *The Big Easy G1A* multimedia data/video LCD projector from Mitsubishi Electronics. The new projector exemplifies Mitsubishi's manufacturing and technological excellence in a big way.

The Big Easy G1A offers multi-scanning capability, lightweight portability, along with crisp, exceptionally bright images—even in rooms with high ambient lighting. The liquid crystal polymer composite (LCPC) LCDs used in *The Big Easy G1A* are superior to the LCDs used in competitive projectors because LCPC technology does not require polarizers. The 550 ANSI lumen brightness of *The Big Easy G1A* guarantees a remarkable image in any presentation environment.

It accepts video, RGB, NTSC, PAL, and SECAM signals for a 640 x 480 VGA display and projects screen sizes from 20 inches to 300 inches. Simple set-up also makes an easy transition from boardroom to training room to videoconferencing.

The Big Easy G1A

FEATURES	BENEFITS
550 ANSI lumens	Brightest, lightest projector in its class.
3 panel design made of LCPC (Liquid Crystal Polymer Composite)	High brightness, clearer images, true color. Projector runs cooler and pixel structure remains cool for stable image display.
Screen size 20" to 300" (measured diagonally)	Suitable for presentation rooms to auditoriums
Aperture stop lens (adjustable iris) F/ 6.4 - F/ 14.3	Like the F stop on a camera, the iris can be stopped down to maximize contrast from 50:1 to 64:1
All glass lens (8 groups, 8 elements)	Glass lenses provide superior optical performance. Vivid details, sharp focus.
Zoom lens: 1:1.5 manual	Allows increase or decrease of picture size
Built in stereo speakers (2)	Completely self-contained audio system (1 W + 1 W)
Computer compatibility	IBM® PC, PS/2 Pentium, and compatibles, Apple® Macintosh, Power Macintosh and Powerbook families
Wireless remotes (2)	One controls projector functions and the second may be used as a remote mouse for PC and Mac.
Projector remote	Wireless, 11 functions
Mouse remote	PC and Mac

SPECIFICATIONS			
Luminescence	550 lumens	Number of pixels	307k x 3 (921,600)
Screen size (diagonal)	20" to 300"	LCD panel	3.1" LCPC x 3
Light source/lamp type	250W, metal halide, user changeable	Aperture stop	Yes
Resolution	640 x 480 VGA, 480 TV lines	Power source	120VAC, 50-60Hz
Contrast ratio	50:1 - 64:1	Power consumption	350 watts
Weight	24 lbs. (10.90 kg.)	Dimensions	9.3" x 11.22" x 21.85" (236 x 285 x 555 mm)
Scan rates	Horizontal: 15.75, 25-37.86 kHz Vertical: 56-72 Hz	Regulatory approvals	UL-1950, FCC Class A, U-CL, DOC
Number of colors	16.7 million	Warranty	1 year parts and labor excluding the projection lamp which is warranted for 30 days
Video standards supported	VGA, NTSC, PAL, SECAM, S-VHS	For more information on The Big Easy G1A or any of Mitsubishi's other projectors or 15" to 42" (13.8 to 40.0" diagonal viewable image) color monitors, call the office nearest you today. Detailed technical specifications available upon request.	
Computer, video inputs	1 VGA, 2 video, 2 S-VHS		
Audio input	Stereo L&R (RCA) x 2 Built-in speakers, stereo
