

DIRECT VIEW
MULTIMEDIA COLOR MONITOR

MEGAVIEW 33. AN AUTO-SCANNING COLOR MONITOR FOR DYNAMIC ELECTRONIC PRESENTATIONS.

The MegaView 33 adds dramatic impact to design reviews, meetings, teleconferencing, product demonstrations, trade show exhibits or any kind of presentation that demands power, professionalism and persuasiveness. Its large, 33" (31.2" diagonal viewable image) direct view CRT accepts both computer-generated analog RGB and TTL signals as well as composite video, S-VHS (separate Y/C) and stereo audio to deliver crisp, clear graphics and video imagery.

The MegaView 33 features state-of-the-art technology and multi-source compatibility, assuring you the unparalleled performance and versatility required for that extra edge in making powerful, professional presentations.

- Compatible with all IBM VGA, S-VGA, Apple® Macintosh® LC, II and Quadra (640 x 480) graphics standards
- High contrast, tinted CRT with Invar Mask for enhanced viewing
- Dynamic Beam Forming (DBF) for improved image definition at monitor screen edges
- Front control panel or multi-function remote control and on-screen display of all set-up functions make control adjustments, as well as input selections, easy and accurate
- MPU-based 15-38 kHz auto-scan range
- Stereo audio with two side-facing amplified speakers and external speaker outputs for added versatility
- 800 x 600/60 Hz NI maximum addressable resolution
