

DIRECT VIEW
MULTIMEDIA COLOR MONITOR

MEGAVIEW 37 PLUS. A COLOR MONITOR WITH AN MPU-BASED 15 TO 61 KHz AUTO-SCAN RANGE.

For presentations with powerful, lasting impact, the MegaView 37 Plus large screen color display monitor from Mitsubishi shines through bright and clear.

With its 37" (35.0" diagonal viewable image) direct view, flat square CRT, stereo sound, wide 15 to 61 kHz auto-scan range and world-wide video and power compatibility, the MegaView 37 Plus is ideally suited for a variety of institutional, commercial and corporate applications. From executive boardrooms to factory floors, the MegaView 37 Plus provides an exceptionally large color display that is bright and bold, even in high ambient lighting. With such sophisticated graphic capabilities, the MegaView 37 Plus color monitor is essential for today's multi-person, electronic presentation viewing environments.

- Ideal for business presentations, design reviews, training, multimedia, product demonstrations, process control and CIM
- High contrast, flat square CRT for enhanced viewing
- Multiple inputs for analog RGB, video, S-VHS and audio
- Dynamic Beam Forming for improved image definition at screen edges
- Front panel control or wireless, multi-function remote control with on-screen display

MEGAVIEW™

The Biggest Name In Large Screen Monitors

 MITSUBISHI
ELECTRONICS

Introducing the MegaView line of large screen monitors from Mitsubishi Electronics.

Mitsubishi was first to offer large screen monitors. And today still has a broader line than anyone else, including 29" to 42" (27.0" to 40.0" diagonal viewable image) MegaView models. Each capable of making your next presentation truly memorable.

Mitsubishi auto-scanning, large screen monitors were developed for multi-person viewing of video, data and graphics, along with dynamic stereo audio. Create spectacular multimedia presentations combining virtually all video

and computer sources available today. With Mitsubishi MegaView monitors, you'll get clearer, sharper images—even in high ambient light.

The MegaView 37 Plus color display monitor with its 37" (35.0" diagonal viewable image) direct view, flat square CRT, exemplifies Mitsubishi's manufacturing and technological excellence in a big way. Its microprocessor-based, auto-scanning circuitry provides instantaneous synchronization over a wide range of frequencies for unsurpassed screen definition and a brilliant display of colors. Add the standard digital, infrared remote control for convenient selection of inputs and display set-up functions, and you're ready to meet today's – and tomorrow's – electronic presentation challenges.
