

**MicroAge<sup>®</sup>**

**TECHNICAL EDUCATION  
SERVICES**

# Technical Education Services

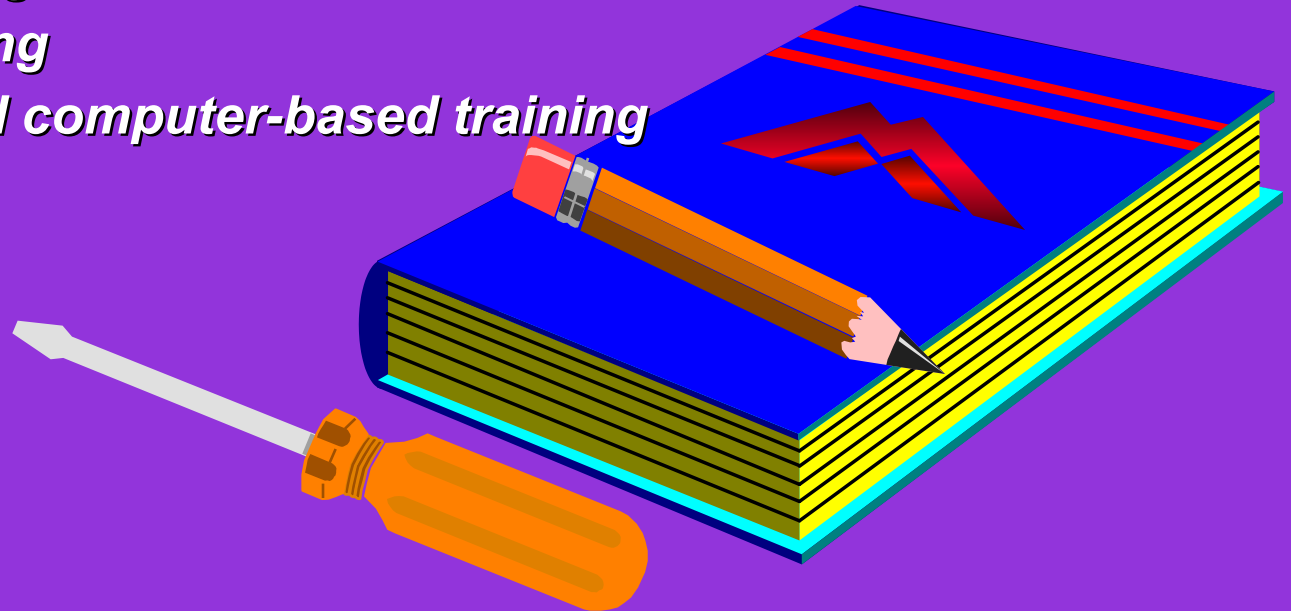

**MicroAge Technical Education Services (TES)** provides the training you need to fulfill certification requirements for Novell, Microsoft, Banyan, SCO and Hewlett-Packard. Training is tailored to your individual and/or company's needs, using a combination of the following options:

**Training at MicroAge Headquarters in Tempe, Arizona**

**On-site training**

**Custom training**

**Self-study and computer-based training**

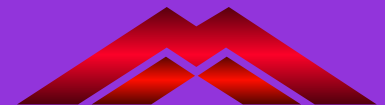

# Technical Education Services

TES instructors work in the field, and are certified in multiple areas to provide a well-rounded educational experience.

By utilizing their real-world experience, our instructors enhance each course by presenting concepts the trainee will confront in today's market.

Our instructors must be approved by each respective vendor, ensuring a superior level of expertise and communication skills.

# Technical Education Services

**Classes fill quickly, and the class size is limited to encourage interaction between the students and the instructor.**

**Registrations should be received two weeks in advance.**

**Call to discuss your training needs with an Education consultant who will assist you with the scheduling of the courses that will meet and exceed your expectations!**

***For Training Registration information, call (800) 544-8877***
