[Registering Drag`n`... Utils](#)

[Drag`n`... Utils Version 2](#)

[Licence](#)

GTI Drag`n`Play

Using drag`n`play is simple. Simply open up the GTI Drag`n`... Utils group in the program manager and double click on the drag`n`play icon. The drag`n`play program will now appear as an icon at the bottom of your screen.

To play a single (or several) sound files simply select the files you want to play in the filemanager and drag them to, then drop them on the drag`n`play icon at the bottom of the screen.

Double clicking on the drag`n`play icon at the bottom of the screen will display the *about box* for it.

File formats Supported: *.wav*

GTI Drag`n`Print

Using drag`n`print is simple. Simply open up the GTI Drag`n`... Utils group in the program manager and double click on the drag`n`print icon. The drag`n`print program will now appear as an icon at the bottom of your screen.

To print a single (or several) files simply select the files you want to print in the Filemanager and drag them to, then drop them on the drag`n`print icon at the bottom of the screen.

Double clicking on the drag`n`print icon at the bottom of the screen will display the *about box* for it. The about box also includes a **change printer** button. Clicking this button will allow you to change the printer your documents are sent to.

File formats Supported: *All file types that have an association setup within Filemanager*

Note Files that have an association setup within Filemanger will have the  symbol beside their name. For details of how to add an association to a file type within Filemanager please refer to your windows documentation.

GTI Drag`n`Trash

Using drag`n`trash is simple. Simply open up the GTI Drag`n`... Utils group in the program manager and double click on the drag`n`trash icon. The drag`n`trash program will now appear as an icon at the bottom of your screen.

To delete a single (or several files) simply select the files you want to delete in the Filemanager and drag them to, then drop them on the drag`n`trash icon at the bottom of the screen.

Double clicking on the drag`n`play icon at the bottom of the screen will display the *about box* for it.

File formats Supported: *All files*

GTI Drag`n`View

Using drag`n`view is simple. Simply open up the GTI Drag`n`... Utils group in the program manager and double click on the drag`n`view icon. The drag`n`view program will now appear as an icon at the bottom of your screen.

To view a single (or several) graphics files simply select the files you want to view in the Filemanager and drag them to, then drop them on the drag`n`view icon at the bottom of the screen.

Double clicking on the drag`n`view icon at the bottom of the screen will display the *about box* for it. The about box also includes a **close all pictures** button. Clicking this button will close all of the currently open pictures.

File formats Supported: *.bmp, .ico, .wmf*

G51 1HG
Scotland

Drag`n`... Utils Version 2

All the Drag`n`... Utils have been improved in Version 2.0. Some of the features Version 2.0 includes are an improved interface, sound & animation and support for more file formats.

But improvements to the standard Utils are not all you get with Version 2. As well as the 4 standard utilities

[Drag`n`Play](#)

[Drag`n`Print](#)

[Drag`n`Trash](#)

[Drag`n`View](#)

version 2 also includes Drag`n`Watch a drag and drop movie player.
