

Introduction

MIDI JukeBox allows you to select and play multiple MIDI and/or .WAV files. Files can be selected with the Open command, by using the File Manager's drag-and-drop feature, or by associating files with MIDI JukeBox.

Files can be played once or in a continuous loop.

Required Hardware and Software

MIDI JukeBox requires Microsoft Windows 3.1 or later and a compatible MIDI output device. MIDI JukeBox supports the SoundBlaster Pro.

Installing MIDI JukeBox

Run `SETUP.EXE` from Windows.

Running MIDI JukeBox

After starting the program, if you need further instructions, press F1 for help.

Distribution and Payment

MIDI JukeBox may be freely copied without cost, provided it is not changed in any way. If you find the program useful, please send \$10.00 to:
