

## *VRXplorer 2.0 SOFTWARE LICENCE*

VRXplorer software is a system of two software applications (Author/Player) that work together to create and display 360 degree views.

VRXplorer software (Author, Player and bundled demos) can be copied, as they are, and distributed free of charge without permission from the author.

VRXplorer is FREEWARE for research purposes, only.

Register your copy to obtain the password to the VRX Player's scripts. This will enable you to customize the Player for use in your applications. No parts or portions of the Player may be assigned or sublicensed.

To register send an email or fax message to the author at the following address, detailing the way you are going to implement VRXplorer in your software.

***Paolo Tosolini - VRX Research***

*via Bembo, 5  
34015 Muggia (TS) Italy*

*mobile: +39-360-877243*

*home: +39-40-275030*

*fax: +39-40-311850*

*email: [tosolini@psicosun.univ.trieste.it](mailto:tosolini@psicosun.univ.trieste.it)*

**Registration will not provide you with the password to VRX authoring module scripts.**

Organizations or individuals that wish to distribute applications for sale that use the VRXplorer Player must obtain permission from the author.

**Warning:**

The author is not liable for any damage caused by the use of this program and has no duty to remedy for its deficiencies.
