1.2 What it actually does...

Goats/Introduction

This module is a simulation of Goat herders and Goats running around a field. The herders plant grass and the goats eat the grass. This blanker shows interesting behavior and is fun to watch.

1.3 Configuration preferences...

SwazBlanker/Goats 2 / 2

```
Goats/Interface
         Save - save and use the current settings.
         Use - use the current settings.
         Test - test the blanker under the current settings
       Cancel - cancel all changes.
     Hearders - number of hearders.
               Default: 40.
        Goats - the number of goats to start with.
                Default: 80.
 Reproduction - how fast the goats reproduce.
                Default: 5.
 Display Mode - the screen mode to use. If the preferred screen cannot
                be opened then the default screen mode will be tried, if
                this fails then the minimum screen mode required for this
                blanker will be tried, if that fails then the blanker will
                quit and let SwazBlanker choose an alternative blank
                method.
                Default: Hi-Resoloution Laced.
```

1.4 Bug fixes and updates...

Goats/History
