1.2   What it actually does...

```
 Introduction
 ============

 This blanker blanks the screen.
```

1.3   Configuration preferences...

```
 Interface
 =========

            Save  - save and use the current settings.
```

```
              Use  – use the current settings.

             Test  – test the blanker under the current settings

           Cancel  – cancel all changes.

    Number (Bees)  – number of bees in the swarm.
                     Default: 20.

Acceleration (Bees)  – how fast the bees accelerate.
                     Default: 1.

    Number (Wasps)  – number of wasps being chased by the bees.
                     Default: 3.

Acceleration (Wasps)  – how fast the wasps accelerate.
                     Default: 1.

            Speed  – how fast the bees and wasps move. Low values are slow,
                     high values are faster.
                     Default: 5.

  Aim Bees at Wasps  – if set the the bees will target onto the nearest wasp.
                     Default: Yes.

     Display Mode  – the screen mode to use. If the preferred screen cannot
                     be opened then the default screen mode will be tried, if
                     this fails then the minimum screen mode required for this
                     blanker will be tried, if that fails then the blanker will
                     quit and let SwazBlanker choose an alternative blank
                     method.
                     Default: High-Resoloution Laced, 4 Colors.
```
