Sorry!

Help files are not available in the Working Model version of Freelance Graphics for Windows.

The Working Model version allows you to try Freelance Graphics before you purchase the full product.   By limiting its capabilities, we can economically provide this trial version to you.

Of course the full product comes with a complete Help system including:

- For Upgraders
- Freelance Basics
- How Do I?
- Index (Search)

Other components of the full product that are not included in this Working Model version are:

- Spell checker
- Over 60 SmartMasters, 500 pieces of clip art, and 18 color palettes
- The File Save command
- The standalone DOS screen show
