IMPORTANT!

You MUST have your Web browser application open to operate the JavaScript CD Cookbook 3/E, but you do not have to be connected to the Internet.

1. Insert CD into CD drive.

2. Open your Web browser first(or you will only see HTML code).

3. From your Web browser, choose the FILE menu from the menu bar.

4. Select the "Open File..." or "Open Local"  etc., option.
(If you are using Netscape Communicator, you may need to click on "Page in Navigator" rather than "Location in Navigator" in order to see the "start.htm" page. You should not have to type in a location).

5. Open the file "start.htm" (PC USERS) or  "start.html"(MAC users) found on your CD drive.

Please note that a few of the JavaScript applications(especially "games") on this
CD are designed to be used by a particular version of a particular browser(e.g., Netscape Navigator 4.0 or Microsoft Internet Explorer 4.5, etc.). We have attempted to identify these in their respective descriptions. Occasionally, however, JavaScript applications have trouble loading on certain machine/browser configurations.

Some scripts will not run with older browsers. Later versions of Microsoft Internet Explorer have been included on this CD-ROM and should be used to operate it, if you have a older versions. You must read and agree with the Microsoft Internet Explorer License prior to using it.
