

Demon Internet Suite

This CD contains a *Trial/Evaluation version of Turnpike v3.05*, the latest version of our Internet access software for Windows, together with *Microsoft Internet Explorer* for browsing the Web.

This trial version offers both a **free** edition of the software and the opportunity to try Demon's Internet service with **nothing to pay** for 30 days.

To install:

- * Run Microsoft Windows on your PC (if this is not already running).
- * Load the CD. If you're using Windows 9x, the setup program will auto-run. Otherwise, run the **setup.exe**.
- * Then follow the instructions on the screen, and if in doubt, consult the Help.

Turnpike,
July 1998
