

## **The unit of power**

The unit of power is the watt (W).

Very small amounts of power can be measured in milliwatts (mW)

$$1 \text{ W} = 1,000 \text{ mW}$$

Large amounts of power can be measured in kilowatts (kW) and megawatts (MW)

$$1 \text{ kW} = 1,000 \text{ W}$$

$$1 \text{ MW} = 1,000,000 \text{ W}$$
