

Pete Antoniak is president of a San Francisco based computer consulting and training company which specializes in Spreadsheet Applications. In addition to Templates of Doom, he has written 4 books on computer applications and was the key expert witness in the famous Broderbund vs Unison World law suit ("Look and Feel" issue).

He is a Naval Academy graduate, class of '67 , has a Masters Degree in Engineering Management from Stanford University and is a licensed Professional Engineer. He is also a Commander(CEC) in the Naval Reserve.

He enjoys jogging, surfing, sailing, whitewater kayaking and hang gliding, the first four of which he does with his 14 year old son.

Call or write for more information on his consulting services.

Templates of Doom tm by Pete Antoniak

COPYRIGHT NOTICE

This program is protected by both International Treaty & Copyright Laws of the United States. All rights reserved Worldwide. This demo version of Templates of Doom consists of 3 of 24 puzzles. You may copy this demo version and give it to others. The

Sheet1

full program cost \$69.95 and an order form is available from the main menu. (You fill in the blanks and print it out.) Low cost site licenses are also available. Call us for details. If you agree to abide by the Copyright requirements, Select YES. (Use the arrow and Return keys.)

SOLAR SYSTEMS SOFTWARE (C) Copyright 1985,86,87,88,89 by
8105 SHELTER CREEK LN Peter Antoniak
SAN BRUNO,CA 94066-3829 Release 2.4 serial 9235
(415)952-2375 Cmpsrv 72307.2366 Lotus 1a,2,3,VP-P1.2,Quattro
To continue, Move the Cursor, to "YES" and Press "RETURN"

Next we need to name the scorecard. Please type:
AN EIGHT OR LESS CHARACTER FIRST OR NICK NAME

NOTE:

This will create YOUR Scorecard template. It will be saved with a file name that is the same as your first name. For example, if your name is Robert, your scorecard will be saved as ROBERT. This is important to remember, because if you select FREEZE from the main menu and leave the game, you must retrieve your named scorecard, ie. ROBERT, not DOOMDEMO.

POTENTIAL PROBLEM HELP SCREEN

If the program stops here, beeps, and says that the DISK IS FULL:
You have too many "named" scorecards on the disk. You must erase a
"named" scorecard worksheet file in order to have room for this one.

Press ESC (to clear the error.)
and ALT-E (to start a worksheet erase macro.)
Select a scorecard file to erase that you no longer need
and Press RETURN.

Sheet1

The score as posted from the file tempin.
A count of the current Adventure Template.
1+count1, The next TEMPLATE to go to.
The template skip to, or replay.
A counter counter.
The name of the scorecard file.

VERSION OF SPREADSHEET IN USE

A 1 = a version has been selected and a name has been picked,
A 0 = continue, a 1 = freeze for break.
A blank cell for label placement.

Yes!

Yes, let's continue with the program.

```
/XIQuat~{LET name1,name}{LET name2,name}{LET name3,name}{LET ansname0,name}{LET ansname1,name}{LET ansname2,name}
```

THE STEP FUNCTION

=====

What it does The fourth choice on the Help/Hint Menu is "I give up, do it for me." When you choose this, you will be given the OPTION of turning on the STEP function. Stepping slows down the action, so you can see what is happening.

It is optional NOTE:Turning it on is NOT NECESSARY for seeing the answer. When it is ON however, each command is exercised one at a time as YOU PRESS RETURN. This way, you can see exactly what is happening.

To turn it on or off: Press Alt-F1

Note: The first 8 STEPS are a setup subroutine, please ignore. You will be ASKED to turn STEP OFF after the Macro is completed, even if you didn't elect to turn it ON.

PAGE DOWN TO CONTINUE

How to know it's on When STEP is on, a note of it will appear on the edge of the screen. We suggest you toggle it ON and OFF now just to see how it works.

Another thing about step If funny things happen when you try to do something, check for the STEP message. If it is ON, turn it OFF.

To stop a macro You can stop a macro by pressing Ctrl-Break and then Esc when the error light starts blinking. However, this may cause problems with the operation of the program & we suggest that you don't unless you know what you are doing.

PRESS RETURN TO CONTINUE

on or off: Press Alt-F2

PRESS RETURN TO CONTINUE

To turn it
on or off: Press Shift-F2

THE END

Thank you for playing our demo program. You may order the full program which consists of 24 puzzles for \$69.95 plus \$4.00 shipping. Select Order Form from the menu, fill out the form on the screen and print it out on your printer. If you think you might have trouble getting the name "Templates of Doom" through your purchasing department, you may order it under the name "Learning Templates for Spreadsheets". Make sure you include the spreadsheet, version # and disk size in your order.

The Program Author
& Support Team.

Return

Sheet1

Welcome to the Demo program of Templates of Doom, the game that taught spreadsheets. This Demo version is designed to run on MOST versions of Lotus 1-2-3 and the Lotus functional work-a-likes. It can not, however, run on a spreadsheet that does not support the Lotus macros language or some of the early versions of VP-Planner. A different Demo runs on PC & Mac Excel.

If you are using Lotus 1-2-3 Release 3, you must press Esc and then Alt-S (Hold down the Alt key and press the S key) each time the program takes you to a new spreadsheet. This is required only for this Demo so that it is compatible with the other versions. We have created a special Release 3 version of Templates of Doom that addresses the special features of Release 3. Make sure you indicate the version you want when you order.

Advice: If you are new to spreadsheets, take the time to look at the screen. Some spreadsheets have very busy screens, and it is difficult to see what is going on. If you are lost, READ THE SCREEN. Trust us. What you need to know is somewhere on the screen. Take your time.

*****PRESS RETURN TO CONTINUE*****

(If you are in 1-2-3 Release 3, press Esc, then press Alt-S.)
