

	A
1	Changing Column Widths
2	To solve the problem and find the hero's name, you must
3	make columns A through V narrower. Either one or many
4	column widths can be changed at a time.
5	To change a single column width:
6	*Move the cursor to the vertical line between the letters
7	that head two columns.
8	double arrows.
9	*Click and hold down the mouse key and move the line
10	
11	To change many adjacent columns at once:
12	*Click, hold, and drag the mouse across the columns you
13	wish to change
14	*Click on Format and select Column Width
15	*Type the preferred width (expressed in picas)
16	*Click on OK
17	
18	To read from the Help Menu:
19	*Pull down the Help Menu on the far
20	*Select Index
21	*Go to Commands and select Format Column Widths.
22	
23	To return to your Adventure Template
24	*Pull down the Window Menu and Select it.
