EPSON MX SERIES PRINTER CONTROL AND ESCAPE CODE WORKSHEET

JAMES G. CONTOS
THE COMPUTER TUTOR
303 PARK DRIVE
JOLIET, IL   60436

THIS WORKSHEET CONTAINS SOME OF THE POPULAR EPSON MX
SERIES PRINT CODES. TO USE A PARTICULAR CODE IN YOUR
WORKSHEET, USE THE FOLLOWING STEPS:

  1) POSITION YOURSELF AT THE CELL IN YOUR WORKSHEET
    THAT YOU WANT TO "ENHANCE"

  2) TYPE IN THE FOLLOWING 1-2-3 COMMAND SEQUENCE: /FCCN

  3) AT THIS POINT, 1-2-3 WANTS TO KNOW THE NAME OF THE RANGE
    TO GET, SO ANSWER WITH THE CODE LETTER OF THE DESIRED PRINT
    FUNCTION. (SEE THE TABLE BELOW)

CODE LETTER	CODE STRING	FUNCTION
A	X	BACKSPACE (USE FOR OVERSTRIKE
B	XXX	CONDENSED ON/OFF
C	4XXX5	ITALICS ON/OFF
D	EXXXF	EMPHASIZED ON/OFF
E	GXXXH	DOUBLE STRIKE ON/OFF
F	XXX	DOUBLE WIDE ON/OFF

  4) FINALLY, 1-2-3 WANTS TO KNOW THE NAME OF THE FILE TO
    GET THE NAMED RANGE FROM. UPON GIVING IT THE FILE NAME,
    SUCH AS PRTCODES IN THIS EXAMPLE, SOMETHING LIKE THE
    FOLLOWING WILL APPEAR IN THE CELL:

              4XXX5   (THIS IS THE CODE FOR ITALICS ON

  5) THE XXX IS TO BE REPLACED WITH YOUR TEXT VIA THE EDIT
    FEATURE OF 1-2-3. AFTER THAT, THE CELL MAY LOOK LIKE THIS:

-THIS TEXT WILL BE IN ITALICS!-

6) THAT'S IT! WHEN YOUR WORKSHEET IS PRINTED, THIS CELL
WILL BE PRINTED USING THE EPSON ITALICS FONT MODE.

Γ

Ξ)

I/OFF)
