Problem   Menu driven worksheet designed to provide easy access to
          various notepads listing tasks to be done, telephone numbers,
          business notes, and other notes. Macros facilitate printing,
          bouncing around, and searching the databases for specific items.

Tips
          Demonstrates a different way to use the cells of 1-2-3's
          spreadsheet. The approach is good, but will probably need
          customization by all who use it.
