Problem Set of macros that automate the process of retrieving messages from the Symphony bulletin board on the World of Lotus.

Tips

String formula - self modifying macros C32 and C33

Handshake commands C12..C22

"TRY" error handling routine is fancy but doesn't seem to work correctly.

Good macros for automating Communications procedures.

Press Alt-M for main menu.

Press ENTER key to leave Find mode. Right-arrow key works in Find.

Do not erase a criteria cells contents by entering a space. Use Alt-E.

App# must be entered as a label in criteria row.

All main menu options can be executed by Alt-letter keys.

You must enter your own printer Setup string with /ppos cmd.

Macro routines do not alter margins. You are free to change them.

Decide on App# before selecting Review option (Alt-R)

Press F9 key to see how many records meet current criteria --->
