

Hi..

A brief manual for customizing the site:

- a. Open „page fla“
- b. Set timeline to frame „77“. Now you should see these picture
  1. Menu items (about, product, service, history)
  2. Content of the menu items
  3. Name of the site (COMPANY NAME)

Doubleclick on the “menu items” and “company name” to change it (choose the arrow-tool)  
For changing the menu items, doubleclick on the “circle”.  
Now you should see this picture.

Content of the menu items  
Frame „21“ = ABOUT  
Frame „50“ = PRODUCT  
Frame „80“ = SERVICE  
Frame „110“ = HISTORY

## Example

1. For changing „ABOUT“, highlight Frame „21“, Now the textfield on the stage should be framed in blue.
2. Doubleclick on the textfield, now you can enter your own texts.  
On frame “140”, there is an email button. You can change the mail address in “actions”

```
on (release) {  
    getURL("mailto:akreis@gmx.net");  
}
```

If you like to use the same font, just copy “**swfit.ttf**“ in your windows fonts folder.

If you have any questions, feel free to contact me [akreis@gmx.net](mailto:akreis@gmx.net)

Have a lot of fun :)  
Aaron
