This program will only work on WB 2.0 and above.

This program was written on an Amiga A1200 68882 6MB.

This program was intended to be used with the workbench in 8 colour mode although it can be used in 4 it won't look as good!

The high score table will be loaded and saved from the directory in which the game is stored if the file is not there a default table will be used.

The sound can be turned off and on by altering the tool type.

The game window graphics will scale themselves to your screens aspect ratio.

BUGS!!!!!!!

None known at present.
