

ButtFace (c) Copyright 1997 John Raddatz (version 1.1.)

**General HARDWARE and SOFTWARE REQUIREMENTS for Visual Basic Programs**

Microsoft Windows 3.0 +, running in standard or enhanced mode.  
80286 or higher microprocessor, 1 MB of memory & 3 1/2" floppy drive.  
CGA, EGA, VGA, 8514, Hercules, or other display compatible with Windows.

**INSTALL INSTRUCTIONS**

Insert disk in drive A (or whatever drive that your floppy is).  
From your Windows Program Manager click on File and select Run.  
Type A:SETUP & press Enter. Follow the setup instructions on the screen.  
(If your floppy is B, than type B:SETUP.)

The setup will install ButtFace to C:\ButtFace unless you specify differently. ButtFace will be placed in the JR BEAR program group.

\*\*\*\*\* a MOUSE IS REQUIRED for ButtFace \*\*\*\*\*

This software disk contains the program ButtFace. It allows you to select different pictures and place them on a ButtFace. The parts are icons and are not actual pictures.

ButtFace has three body part sections for you to select from. The sections include: eyes, nose, and mouth. Each of the three sections will have ten picture choices to choose from.

To use the ButtFace software, click on the picture in the category selected. The corresponding picture will be displayed on the ButtFace to the left of your selection.

ButtFace has six menu options at the top of the screen. They can be accessed by clicking the mouse on the menu title desired, or by holding down the Alt key and the corresponding underlined letter in the title. Below are the menu titles.

Exit /	About /	Order	/	Warranty /	UMak Previews /	KnoUr
		Print to printer			UMakZoo	
		My printer took a dump!			UMakGirl	
					UMakHome	

Exit	-----	exits the ButtFace software program.
About	-----	a brief summary about the program.
Order	-----	has two sub menus....
	Print to printer-----	print order form to your printer.
	My printer took a dump! --	view order details on screen.
Warranty	-----	displays the ButtFace warranty.
UMak Previews	-----	previews the other UMak software.
KnoUr preview	-----	previews the KnoUr software series.

ButtFace software provides a quick diversion from your everyday computing activities. Have fun creating your own ButtFace!
