Solaris Certification Program Application

The SunSoft™ Solaris Certification Program is available to Catalyst℠ software application developers who market products based on the Solaris 2 operating environment. The program offers a variety of SunSoft sponsored marketing and lead generation activities including use of the Solaris Compatible logo. This program is only available for products supporting the Solaris 2 SPARC or Solaris 2 x86 operating environments.

General Instructions:

- Type or print information legibly.
- Do not use all capital letters unless appropriate for a specific product or acronym.
- All questions in Part III must be answered for your application to be considered.
- Complete one form for each product requiring Solaris 2 certification.

Part I: Company Information

Company Name: ______________________________ Catalyst Number: ____________________

Address: ______________________________ City: ____________________

State: ____________ Country: ______________ Zip/Postal Code: ____________________

Main Phone Number: ______________________________ Fax Number: ____________________

Marketing Contact: ______________________________ Title: ____________________

Phone Number/Extension: ______________________________ Email: ____________________

Engineering Contact: ______________________________ Title: ____________________

Phone Number/Extension: ______________________________ Email: ____________________

Part II: Product Information

Product Name: ______________________________ Version/Release: ____________________

Product Description: ____

____

Version(s) of Solaris Supported: ❏ Solaris 2.1 x86 ❏ Solaris 2.3 SPARC ❏ Solaris 2.4 x86 ❏ Solaris 2.4 SPARC

Part III: Self-Test Procedures (to be completed by technical staff)

All questions in Section III must be answered for your application to be considered. Program questions can be directed to the Solaris Certification Program Manager at (415) 336-5555, or the Catalyst Information Center at (415) 336-6640.

1. If your application requires modifying kernel parameters to fit your application's needs, does your installation procedure notify the installer of the following steps?

   a) Read through the system(4) man page and put the key word/value command into the `/etc/system` file. This step requires super user privileges. ❏ Yes ❏ No ❏ Not applicable

   b) Reboot the machine with reconfig option before running your applications. This step also requires super user privileges. ❏ Yes ❏ No ❏ Not applicable

2. Do you provide a way for users to remove your product? ❏ Yes ❏ No ❏ Not applicable

3. Does your application installation procedure verify that there is enough disk space to install? ❏ Yes ❏ No ❏ Not applicable

4. Does your application installation procedure warn the installer if the installation requires super user privileges? ❑ Yes ❑ No ❑ Not applicable

5. Does your application provide on line help? ❑ Yes ❑ No ❑ Not applicable

6. Does your application verify that any network and floating licenses work properly? ❑ Yes ❑ No ❑ Not applicable

The following questions are for applications based on the X Window System. If the questions do not apply to your application, please indicate so.

7. Does your application handle maximizing each window and then restoring each maximized window to the original size? ❑ Yes ❑ No ❑ Not applicable

8. Does your application redraw the application's window properly? ❑ Yes ❑ No ❑ Not applicable

9. Does your application iconify the application? ❑ Yes ❑ No ❑ Not applicable

10. Does your application use the proper icon for the application iconized window? ❑ Yes ❑ No ❑ Not applicable

11. Does your application respond to window resize action? ❑ Yes ❑ No ❑ Not applicable

12. Does your application respond to window move action? ❑ Yes ❑ No ❑ Not applicable

13. Does your application respond to window expose event? ❑ Yes ❑ No ❑ Not applicable

14. Does your application respond to window exposure events with back store turned on? ❑ Yes ❑ No ❑ Not applicable

15. Does your application respond to window manager close function by properly shutting down your application? ❑ Yes ❑ No ❑ Not applicable

16. Does your application support copy and paste actions? ❑ Yes ❑ No ❑ Not applicable

17. Does your application perform as expected when different fonts are used? ❑ Yes ❑ No ❑ Not applicable

I hereby affirm that the information provided above is accurate. I understand that conditions for participation in the Solaris Certification Program are subject to change without notice, and that re-certification is required for future releases of Solaris and may be required for future releases of certified products.
