# THINKIN'™
THINGS
COLLECTION 2

EDMARK

Welcome to
Thinkin' Things Collection 2
...on CD-ROM!

Thinkin' Things Collection 2 is the second in a family of Edmark products designed to exercise cognitive skills and promote intellectual growth. Thinkin' Things offers unique, engaging experiences that develop a variety of thinking skills including memory, critical thinking, problem solving, and creativity.

Society's traditional view of intelligence as a single measurable factor that will predict success is changing to a view of human potential as a composite of multiple intelligences. You may notice strength in musical/rhythmic intelligence as your child learns Toony's Tunes or creates rhythmic compositions in Oranga Banga's Band. You may observe visual/spatial intelligence as your child creates with 2-3D BLOX or Snake BLOX. In all Thinkin' Things experiences, self-confidence is enhanced; exploration, experimentation, and creativity are fostered; and persistence is rewarded with success.
