

**Conflict Catcher 3**

Set: **Standard Set**

MacTCP (115.5K) 

**Open** **Delete...**

Version: 2.0.6  
 Kind: control panel  
 Folder: Control Panels  
 File Type/Creator: odev/ztop  
 System Memory: 86K/97.5K  
 High Memory: zero K  
 Date Added: 4/24/95 1:50 PM

MacTCP

This control panel allows you to control various TCP/IP configuration options, including your IP address and a gateway address. You may find that some options have been pre-configured by your network administrator and that you cannot change them.

(Description from MacTCP)
