MACWEEK LABS

BENCHMARKS
Web server performance
(Mbytes per hour)

Server Solution 6150/66
Server Solution 9150/120

| | 5 clients | 10 clients | 15 clients | 20 clients |
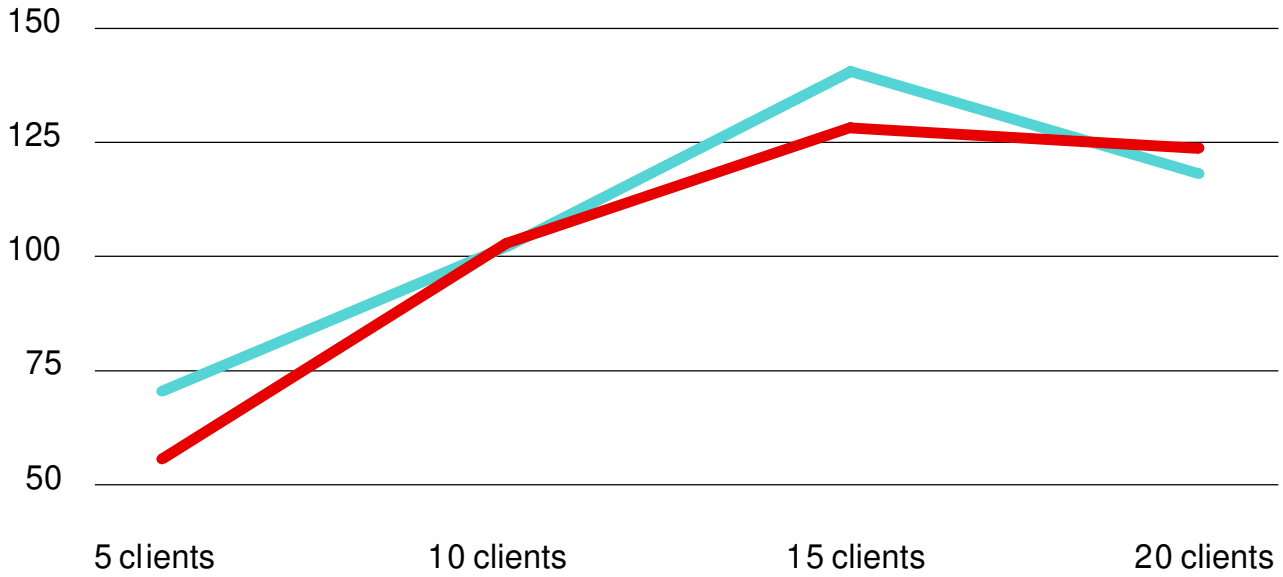

All tests were performed on an Ethernet network with 20 Mac clients
running Netscape Communications Corp.'s Navigator. Each server was
running WebStar 1.2 with 8 Mbytes of RAM allocated to the server
software.
