

Benefit of peer-to-peer system

- ▶ Installs easily on top of E-mail system

Drawback

- ▶ Difficult to administer

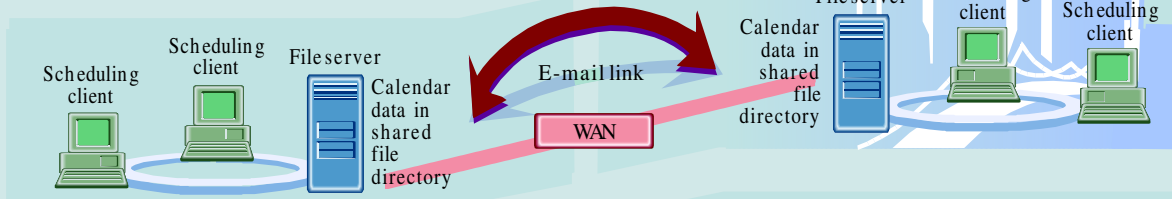

Benefits of store-and-forward system

- ▶ Minimizes network traffic by storing calendar data centrally
- ▶ Easier to administer than peer-to-peer system

Drawback

- ▶ E-mail delays can delay synchronization of schedules

Benefits of client/server system

- ▶ Minimizes network traffic by storing calendar data centrally
- ▶ Provides real-time update, quick searches for free time
- ▶ Easiest to administer

Drawback

- ▶ Server failure halts synchronization of schedules
