HOW OLE DB WILL CHANGE THE RULES OF DATA ACCESS

SQL query tool

Desktop database application

Business rule

Each time a new sale is entered, creates a record in TOP_CUST if the amount is equal to or greater than $1,000.

OLE DB component

OLE DB interface

OLE DB interface

OLE DB interface

Database server data

Spreadsheet data

Local database data

In OLE DB, business rules will be transformed into OLE objects that can be used by any application.
