NETWARE CONNECT 2.0: A SOLID CHOICE FOR PC-TO-LAN CONNECTIVITY

PCWEEK LABS

	PC-to-LAN	LAN-to-LAN
Novell Inc. NetWare Connect 2.0	62.6	
Hewlett-Packard Co. Dial-A-LAN	32.2	66.6
3Com Corp. Access Builder 2000	58.4	55.1

File-transfer rates (in Kbps)
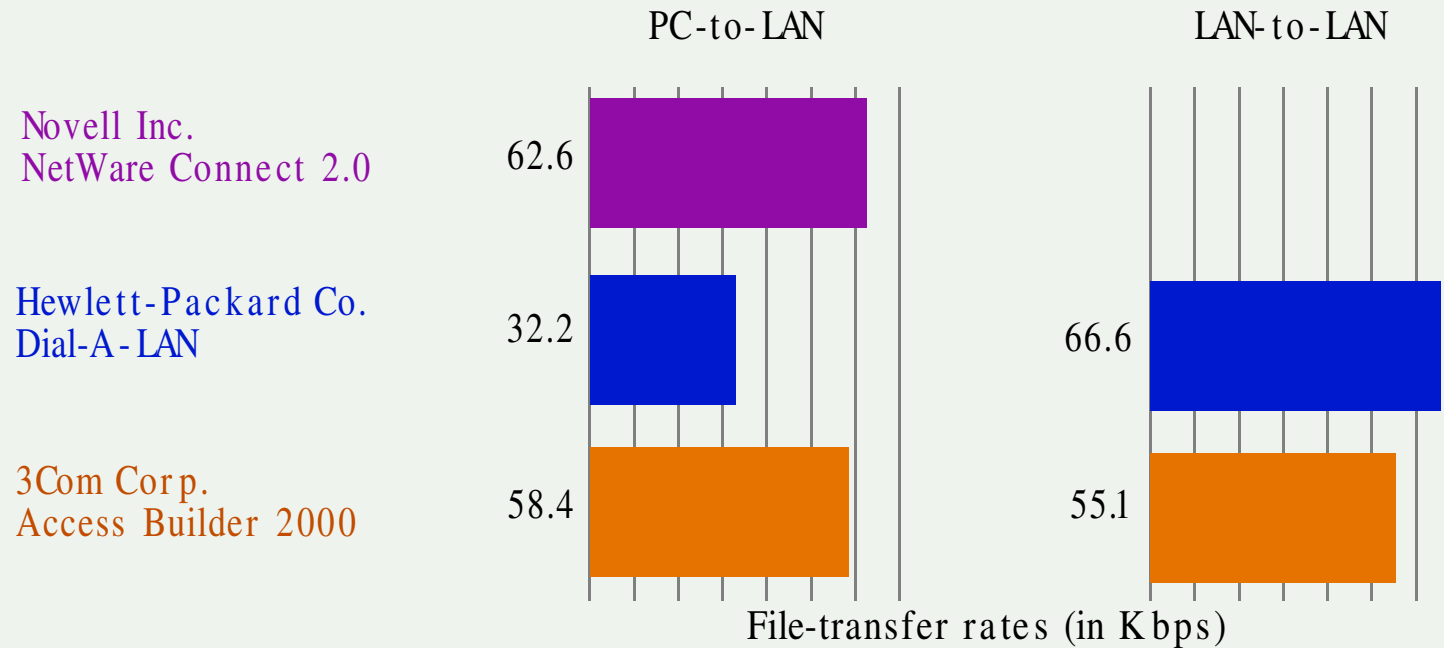

To test the PC-to-LAN file-transfer performance, we used XCOPY to transfer a suite of six text and graphics files totaling 2.6M bytes from the server to our local workstation's hard drive. For the LAN-to-LAN tests, we transferred the same file suite between two Ethernet LANs. (NetWare Connect does not offer LAN-to-LAN access.)
