Stanford Graphics 3.0	56	Yes	Yes	*	None

SOFTWARE: Presentation Graphics

Product	Additional features
Persuasion 3.0	Highlighted builds; transition effects; multiple slide masters; extensive charting (including true 3-D charts); advanced precision tools.
MediaWrangler 2.0	Drag and drop; point and click.
SST: Super Show & Tell for Windows 2.0	Modeless editing; animation; slide sorting.
CA-Cricket Graph III 1.53	Algorithm and data analysis.
The Multimedia Workshop	Photo library; QuickTime library; sound-effects and music library; three complete workshops (Writing Workshop, Video Workshop, and Paint Workshop).
DeltaGraph Pro 3.5	Scientific and technical features (i.e., error bars, curve fitting, log scaling, label scaling in one-degree increments); chart- template libraries; custom color schemes; data links.
PhotoWorks 3.1	Multimedia slide-show presentations; screen capture; includes library of over 200 high-resolution color images and sound effects.
Color Presentation Magic 2.2	Slide creation; four-to-a-page handouts.
EasyShow 2.0	*
Astound 2.0 for Windows	Extensive interactive capabilities.
MovieWorks 2.2	Animation; audio; media editing.
Freelance Graphics for Windows 2.1	Editing; text-animation features for screen shows; preview capabilities; onscreen annotation; hyperlinks to other slides, applications, or Windows events.
Action 3.0 for Windows	Outliner; automated flying bullets; timeline; motion; 3-D animated charts.

SOFTWARE: Presentation Graphics

Product	Additional features
Presentation Partner 1.0	Automatically generates multimedia presentations for many topics in three different styles; includes automatic file conversion, audio-editing tools, and SST.
PROMotion 1.5	Print to video with full Sony Visca support; pop-up scripting (eases creation of interactive animations).
mPower 2.1	Accesses and controls virtually all audio and video devices connected to Macintosh.
Presentations 3.0 for Philmont Symposium	Bitmap editor; OLE 2.0. *
Q/Media for Windows	Timeline to synchronize different media elements; interactive buttons.
Harvard Graphics 3.0 for Windows	Quick Presentations (predesigned presentations with content); animation; conferencing capability; HyperShow.
Harvard Graphics 3.07 for DOS	Animated symbols; HyperShow; online tutorial.
Stanford Graphics 3.0	Formula visualizer; curve fitting.
