

Crescent Upgrade Wizard for Visual Basic 4.0

Please indicate the type of action you wish the Wizard to take when API and DLL declarations and calls are found:

API (Kernel, GDI, User) Declares

- Convert to 32-bit -- Comment-out 16-bit code
- Insert TODO: comment Only

Third-Party DLL Declares

- Create TODO: comment for potential conflicts

API And Third-Party Calls

- Create TODO: comment for call changes
